Company

Cartindustria Eurocarta, who has always been concentrated on proposing top quality products, is today one of the most important companies into the professional tissue market.

For the development of this professional market, today our company contributes to the creation of an high quality product: from purchasing of new-generation machineries to the personnel specialized training, from internal organization to the best commercial choices.

*The company which is today
the quality emblem of the
professional tissue market*

The products you are waiting for,
the service you are looking for,
the quality you need.

Company

With an over 30 years lasting production experience, we work on providing the best solutions for the "away from home" market: from pure pulp products, through mixed qualities, up to the ecological ones.

Cartindustria Eurocarta's products range includes hand-towel roll, industrial wipers, medical rolls, maxi and mini jumbo toilet paper and fold handtowels. All of them are produced with the best raw materials: pure cellulose, ecological qualities, in white or in coloured version.

COMPANY WITH QUALITY SYSTEM

The company which is today the quality symbol for the professional tissue market

Values

The right way to innovations begins for Cartindustria Eurocarta from the production process choice, up to internal analysis laboratories, where checks and tests are made on product. Our passion for technology has always influenced our history, pushing our growth and development.

Thanks to our product and process technology, we are always able to offer to our customers an high technical service level, with an active spirit in finding professional products and solutions according to the new market needs.

Even if our product lines level is highly technological, machineries maintain an elevated flexibility which permits us to answer to various customers needs.

All our product innovation for an excellent personalized service

CENTOxCENTO

Value on the whole line

Products of CENTOxCENTO line are realized in high quality pure pulp: ply combinations, softness, surface evenness, permit high use performances.

CENTOxCENTO line is suitable for various uses, thanks to its main characteristic, being made of pure pulp CENTOxCENTO makes the difference!

TECNOCELL

Rational choice

TECNOCELL line is a group of items which combines good price with quality.
Thanks to high brightness and performances TECNOCELL can be used in various fields.

This product is suitable for contact
only with dry food

ECONET

Natural Touch

ECONET is a family of ecological papers which adds to the excellent pulp quality, the reliability of a product which take care of the environment.

In fact it is made of raw materials obtained in observance of environment safeguard rules.

Raw materials quality grants also a good finished product homogeneity.

With ECONET you are sure of making an ethical and economical choice

This product is suitable for contact
only with dry food

BLUE LINE

Strong spirit

BLUE LINE products have been realized to be used in the food market.

The blue colouration of selected raw materials is highly recommended in the professional market, in accordance with HACCP system rules.
