ABRI-SOFT
superdry

Underpad, ABENA Abri-Soft Superdry, 60x40cm, light blue

- ✓ Absorbent fluff and SAP core
- ✓ Soft and smooth nonwoven surface
- ✓ Rapid liquid absorption
- ✓ Liquid safe back sheet and sealed edges for extra protection
- ✓ Available in different sizes

Product Description

Abri-Soft Superdry is used as a protective, disposable underpad for e.g. beds and chairs. Suitable for incontinent users, but also for non-sterile procedures. The underpad contains both fluff and SAP, which encapsulates the liquid even faster and keeps the surface dry and comfortable. The odor system minimises unpleasant smells. In addition, the underpad has sealed edges for optimum leakage protection, and the surface is covered with a soft nonwoven material for enhanced user comfort. The use of disposable underpads reduces the risk of contamination.

Abri-Soft Superdry offers light to moderate absorbency and is available in different sizes. It is also available in a versions with flaps and a version with tape, which are usefull for active or restless users, as the underpad is fixated on the sheet.

Nordic Swan Ecolabel is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. FSC™ Mix means the product consists of a blend of FSC certified wood and recycled materials. For more information, go to www.fsc.org.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

The Dermatologically Tested symbol guarantees that products have been tested for potential skin irritations by an independent third-party laboratory.

ABENA's incontinence products are designed and engineered to ensure minimal odor arises from the product. Odor control is a critical factor in ensuring discreteness for the user.

Raw material that absorbs its own weight 10 times and has excellent fluid dispersion capabilities.

Raw material, polyacrylate, that absorbs its own weight 33 times.

Special feature in incontinence products and baby diapers that help disperse fluid and keep the skin dry.

The product is only for single-use.
