- ✓ Absorbent fluff and SAP core
- ✓ Breathable backing sheet
- ✓ Allows skin to breathe
- ✓ Better body temperature regulation
- ✓ Soft and smooth nonwoven surface
- ✓ Rapid liquid absorption

Product Description

Extra security for safe and comfortable nights, with ABENA Pad - Breathable disposable, for protection of beds and chairs, specifically designed for incontinent users. Reduced risk of skin irritation and better regulated body temperature with the breathable back sheet. Experience a dry surface faster, as the underpad contains both fluff and SAP, which encapsulate liquid. On top of that, leakage protection is ensured with sealed edges and user comfort is enhanced due to the fact that the surface is covered with a soft nonwoven material. Unpleasant smells are minimized with an odor system, and disposing of it after use is easy and discrete.

FSC™ (Forest Stewardship Council) is an international non-governmental organization dedicated to the promotion of responsible forest management worldwide. FSC™-certified products are made from raw materials from well-managed forests and responsible sources. The label's traceability and integrity are upheld through stringent control measures, and by choosing FSC™-certified products, you help take care of forests and the people and wildlife that call them home. FSC™ Mix means the product consists of a blend of FSC certified wood and recycled materials. For more information, go to www.fsc.org.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

Your guarantee that our products have been tested for ingredients which can potentially cause skin irritation. Tests conducted by an independent third-party laboratory.

The product is fully breathable making it more comfortable for a longer period of time, maintaining skin integrity.

ABENA's incontinence products are designed and engineered to ensure minimal odor arises from the product. Odor control is a critical factor in ensuring discreteness for the user.

Raw material that absorbs its own weight 10 times and has excellent fluid dispersion capabilities.

Raw material, polyacrylate, that absorbs its own weight 33 times.

The product is only for single-use.
