

Product datasheet

Abri-Soft Classic, art. no. 4123

Description:

Disposable underpad with fluff, blue
Fluff 190 g/m², nonwoven 11 g/m², PE 20 g/m²
Bleached without chlorine, free from chlorine-based plastic, phthalates and other endocrine disrupting substances
Produced for Abena A/S, DK under ISO 9001:2008
Nordic Swan and FSC labelled

Application:

- Can be used by incontinence patients to prevent skin problems by keeping a dry surface and a natural pH level of the skin
- Can be used for non-sterile procedures such as wound dressing or blood test sampling to maintain high levels of hygiene and prevent bacteria growth
- It is also suitable for additional protection for bed and chairs. The underpad is closed on all 4 sides and can be positioned diagonally under the user for best protection of the bed against incontinence

CE

CE-label according to EU Directive for Medical equipment 93/42/EEC, Annex VII, class 1

Sterilization:

Delivered from Abena as a non-sterile product
Method of sterilization: Gamma radiation

Packaging:

Inner packaging: LDPE-foil Transport carton: Cardboard

Storage, durability and waste management:

Storage: store dry and keep away from direct sunlight
Durability unopened: 5 years
Waste management: LDPE is combusted or recycled. Cardboard is combusted or recycled
