ABRI-FORM

## All-in-one brief, ABENA Abri-Form, M2, Premium

- ✓ 100% breathability for healthy skin and optimum comfort
- ✓ 360° leakage protection- barriers and elastics all around providing optimal snug fit and preventing leakage
- ✓ Top-Dry System for dry surface to protect the skin
- ✓ Efficient core technology for fast absorption and high performance
- ✓ Curved leg elastics for optimum fit.

### Product Description

Abri-Form is our Premium range of all-in one briefs for moderate to heavy incontinence. The fully breathable and anatomically shaped briefs provide 360 degree leakage protection and an optimal snug fit. All products are equipped with leakage barriers and curved leg elastics, selected products also have built-in cross barriers. A combination of different barriers and elastics offer ultimate leakage protection all around the product. The products feature the Top-Dry system which ensures a dry surface even after repeated urination, maintaining skin integrity. The efficient core technology provide fast absorption and high performance. The odor system minimizes unpleasant smells. The high quality flexible combi tapes with double tape function ensures an optimum fit and easy repositioning. The wetness indicator with graduation scale guides the user and caretaker to the product with the right absorption level and aids product changes. The dermatological tested products feature the Nordic Eco Label.

### Instructions for use/application

All-in-one brief for moderate to heavy incontinence. Fold the brief lengthways with the backsheet turned outwards. Pull the brief from front to back. Fan out the front of the brief, creating a channel shape between the legs. Fix the bottom tapes on both sides and then fix top tapes angled downwards for a secure and comfortable fit.

Nordic Swan Ecolabel is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

The Dermatologically Tested symbol guarantees that products have been tested for potential skin irritations by an independent third-party laboratory.

The product does not contain latex.

The product is equipped with flexible tape for comfort and leakage security.

Wetness indicator is a liquid-sensitive strip that changes color or fades out indicating when it is time to change the product.

The product is equipped with barriers to prevent leakage.

ABENA's incontinence products are designed and engineered to ensure minimal odor arises from the product. Odor control is a critical factor in ensuring discreteness for the user.

Unique Top-Dry system that provides a rapid absorption and a dry surface even after repeated urination.

The product is fully breathable making it more comfortable for a longer period of time, maintaining skin integrity.

Dual Wrapped Core technology provides full absorption precisely where needed, achieving best possible performance and discrete products.

ABENA's unique feature preventing leakage all around the product and providing an optimal fit.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.
