### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

##### ▼ General information

In the case of accident: Contact a doctor or casualty department – take the label or this safety data sheet.  
 The doctor can contact The National Poisons Information Service (dial 111, 24 h service). Contact a doctor  
 if in doubt about the injured person's condition or if the symptoms persist. Never give an unconscious  
 person water or other drink.

##### ▼ Inhalation

Bring the person into fresh air and stay with him.

▼ **Skin contact**

Immediately remove contaminated clothing and shoes. Ensure that skin, which has been exposed to the material, is washed with water.

▼ **Eye contact**

Remove contact lenses and open eyes widely. Flush eyes with water or saline water (20-30°C) for at least 15 minutes. Seek medical assistance and continue flushing during transport.

▼ **Ingestion**

Provide plenty of water for the person to drink and stay with him/her. In case of malaise, seek medical advice immediately and bring the safety data sheet or label from the product. Do not induce vomiting, unless recommended by the doctor. Have the victim lean forward with head down to avoid inhalation of- or choking on vomited material.

**Burns**

Not applicable

▼ **4.2. Most important symptoms and effects, both acute and delayed**

Irritation effects: This product contains substances, which may cause irritation upon exposure to skin, eyes or lungs. Exposure may result in an increased absorption potential of other hazardous substances at the area of exposure.

▼ **4.3. Indication of any immediate medical attention and special treatment needed**

IF concerned: Get immediate medical advice/attention.

**Information to medics**

Bring this safety data sheet.

## SECTION 5: Firefighting measures
