- ✓ Anatomically shaped for better fit
- ✓ Wetness indicator with graduation scale
- ✓ Odor Control

Product Description

Abri-San 5-11 is our premium range of anatomically shaped pads for moderate to heavy incontinence. The products feature the Top-Dry system for optimum comfort and skin integrity even after multiple urination. The breathable and anatomically shaped pads keeps the skin healthy and offer an excellent fit. All products are fitted with standing leakage barriers combined with front and rear built-in cross barriers preventing leakage all around the product. A combination of barriers and elastics offer 360degree leakage protection. The odor system minimises unpleasant smells. The wetness indicator with graduation scale guides the user and caretaker to the product with the right absorption level and product changes. The dermatological tested products feature the Nordic Eco Label.

Packaging Disposal Instructions	Can be recycled or incinerated.

Instructions for use/application

Shaped pad for moderate to heavy incontinence. Abri-San products are suitable for almost all customers, as no body shape is required, as the product only fills between the legs and not around the abdomen and hip. Abri-San Premium in sizes 5-11 should always be used with special fixation underwear, like our Abri-Fix products. The fixation pants ensures a close fit and reduces the risk of leakage. Easy product size recognition by colour codes, names and numbering system.

Nordic Swan Ecolabel is an official Scandinavian environmental label. Products with the Nordic Swan Ecolabel meet stringent environmental requirements with regard to raw material, production, use, documentation, and safety.

Regulation (EU) 2017/745 is a regulation of the European Union on the clinical investigation and sale of medical devices for human use. It repeals Directive 93/42/EEC, which concerns medical devices, and Directive 90/385/EEC, which concerns active implantable medical devices, on 26 May 2021.

The CE mark guarantees that a product is safe to use and complies with all safety precautions. CE stands for Conformité Européenne (European Conformity) and is mainly found on electronic equipment, safety equipment, construction products, and medical devices.

The Dermatologically Tested symbol guarantees that products have been tested for potential skin irritations by an independent third-party laboratory.

The product does not contain latex.

Wetness indicator is a liquid-sensitive strip that changes color or fades out indicating when it is time to change the product.

The product is equipped with barriers to prevent leakage.

ABENA's incontinence products are designed and engineered to ensure minimal odor arises from the product. Odor control is a critical factor in ensuring discreteness for the user.

Unique Top-Dry system that provides a rapid absorption and a dry surface even after repeated urination.

The product is fully breathable making it more comfortable for a longer period of time, maintaining skin integrity.

ABENA's unique feature preventing leakage all around the product and providing an optimal fit.

Drop system indicating absorption. The more drops, the higher the absorption. Ranges from 1 to 9 drops.
