

Vacuum SWD 80

Wet- and dry vacuum with large collection container

The SWD 80 is the universal multi - purpose vacuum, which can aspirate both liquids and solids.

Supplied with filters for both dry and wet cleaning.

The large filter area ensures a high dust separation during dry suction.

The industrial vacuum got a large wet filter for a long service life. A float prevents the container from being filled to overflowing.

It is extremely robust thanks to the powder-coated steel container.

Recommended applikation:

- Universally applicable in almost all branches of industry
- Car Wash
- Small workshops
- coachbuilder

Technical data

SWD 80

Power	2,3 kW
Depression	2500 mm H ₂ O
