

APESIN oxydes

Laundry disinfecting and bleaching additive

■ Bleaching agent ■ Bright whiteness ■ Low temperature

Product Profile

- APESIN oxydes disinfects from 20°C and is bactericide, levuricide and fungicide according to EN 1276 and EN 1650 and EN 13697 norms on hard surfaces.
- Its formula based on hydrogen peroxide and peracetic acid removes all types of bleachable stains and brightens white linen even at low temperature.
- When incorporated in the washing phase, APESIN oxydes avoids the use of chlorine bleach.

Area of application

- For professional machines.
- Bleaching: from 40°C
- Laundry disinfection: in combination with ACTIV liquid and SYSTEM alca (see laundry disinfection table)
- For all types of bleaching-resistant laundry.

Ingredients:

Ingredients per 100g: 5g PERACETIC ACID, 26g HYDROGEN PEROXIDE

Application & Dosing

Automatic dosing system highly recommended.
