

548740

Damp 48, Heavy Duty, Hook & loop, 40 cm, Grey

Damp 48 is ideal for medium-heavy soiling on smooth floor surfaces. The raised microfiber stripes help cut through even the toughest of dirt, whilst the stranded fringe helps collect the heavier particles. The bulkier construction, which combines absorbent viscose and microfiber, creates a lasting reservoir of water to extend the coverage even in the most demanding areas.

Wash the products as soon as possible after use - to reduce the risk that dirt becomes ingrained with stains and odors as result.

Wash cloths and mops of various types separately, to avoid contaminating each other with lint.

Pre-rinse in cold water with frequent water change, no added chemicals - in order to remove any chemicals that can have been used for cleaning and may interfere with or cause a negative impact on the fabric at higher temperatures in the washing process
