Ergonomic shovel, 340 x 270 x 75 mm, 1110 mm, Green

Robust hygiene shovel. The handle of this shovel is re-inforced with an inner aluminium tube. It is stepped in two places which helps to prevent back injuries. The neck joint has been strengthened in order to withstand heavy duty use. The short handle and small blade combination make it light weight and able to fit into smallish containers. Sometimes use as a large-scale dustpan.
