

691136

## Basic microfibre cloth, 32 x 32 cm, Yellow

Perfect for general cleaning. Can be used on all kinds of hard surfaces. Used dry it picks up and retains the smallest dust- and dirt particles by static electricity. Damp with water it absorbs dirt and grease by the capillary effect.

Wash the products as soon as possible after use - to reduce the risk that dirt becomes ingrained with stains and odors as result.

Wash cloths and mops of various types separately, to avoid contaminating each other with lint.

Pre-rinse in cold water with frequent water change, no added chemicals - in order to remove any chemicals that can have been used for cleaning and may interfere with or cause a negative impact on the fabric at higher temperatures in the washing process
